

As the only public CEGEP in Western Quebec offering post-secondary English language education, Heritage College is committed to the social, cultural and economic advancement of the community. Its first priority is to provide to individuals and groups within that community quality learning opportunities for the achievement of their education, career, and life-long goals.

FACULTY PART-TIME CHARGE FOR THE WINTER 2012 TERM IN THE ELECTRONICS TECHNOLOGY DEPARTMENT

The College is seeking a part-time professor to join a dynamic team to teach within the Electronics Technology (243) discipline in the Winter 2012 term.

243-A13-HR Analog Circuits III (10 hours/week)

This course examines nonlinear circuits such as switch mode supplies, A/D and D/A converters, codecs, integrators, modulators, and filters.

Job Duties

The CSN/CEGEP Collective Agreement Article 8-4.01 defines the job duties as follows:

In a general way, the professor's teaching load shall include: preparation of course outline; preparation of classes, labs and fieldwork; teaching classes, labs and fieldwork; adaptation; support and supervision of students; preparation, invigilation and correction of examinations; revision of corrections at the students' request; participation in pedagogical days organized by the College; participation in departmental meetings and required activities; departmental coordination; special support and supervision activities; participation in program activities, program development, implementation and evaluation, and institutional development.

Qualifications

Minimum of a Bachelor's degree in Electrical, Electronic, Telecommunication or Computer Engineering. Several years of teaching experience at the undergraduate or college level with first and second year students is preferred. Fluency in English, oral and written and a working knowledge of French, oral and reading, is required.

Ability to:

- Create a dynamic, challenging, and motivated learning environment
- Adapt to a variety of student needs and provide appropriate academic and career development support
- Utilize excellent communication and interpersonal skills
- Demonstrate knowledge of subject matter through academic or non-academic experiences
- Apply theoretical concepts to current workplace needs and skill requirements
- Provide assistance and display leadership in the on-going development of the Electronics Technology program at Heritage College
- Stay abreast of changes and new program requirements through regular professional development activities
- Must be flexible as required by the department workloads
- Must be willing to work collaboratively within an Electronics Technology team.

Salary

Salary is commensurate with qualifications and relevant experience within the salary scale defined in the FNEEQ/CSN Collective Agreement.
