Electronics Technology at Heritage College goes Co-op

Pictured here are Electronics Technology students Peter Senack, Allan Ford and Daniel Oderkirk-Bellis, all of whom participated in the recent Program Showcase at Heritage College. Their projects were among those exhibited by students from all three years of the Heritage Electronics Technology program.

Starting in the fall of 2009, the career program in Electronics Technology at Heritage College will include two paid co-op work terms which will give students valuable work experience and connections with local industry employers.

For more information about the new features of the Electronics Technology program at Heritage, visit the College website at www.cegep-heritage.qc.ca or contact Communications Advisor, Sandra Ricci at 819.778.2270, x. 1461.
