Heritage College Science Student receives a Wendy's Classic Achiever® Scholarship

Heritage College is proud to announce that second-year Science student and Student Association President, Allison McGlashan has received a Wendy's Classic Achiever® Scholarship. At the April 20th Board of Governors meeting, Allison, who is also a member of the Heritage College Board, was presented with her award and cheque by Monsieur Gilles Mongeon, on behalf of the Wendy's Classic Achiever® Scholarship Awards Program.

Allison had this to say about her motivation, the award and her time at Heritage:

The driving force behind my community and school involvement is my passion for sport as well as my desire to promote participation in extra-curricular activities. It is an honour to receive such a prestigious award which will undoubtedly help me to pursue further studies. My two years at Heritage has given me an opportunity to be surrounded by a number of inspirational leaders who have further motivated me to be involved and take pride in my school as well as the community.

“She is a leader in everything she does,” remarked Monsieur Mongeon before presenting Allison with her \$5,000 cheque and a letter of congratulations from Prime Minister Stephen Harper, adding that she had been one of the top ten among approximately 12,000 scholarship applicants.

Monsieur Mongeon also presented Heritage College Director General, Louise Brunet, with a \$1,000 cheque which will go to the Heritage Endowment Fund, as a thank-you for the hard work of the teachers and staff. He added, “Achievers are made, not born. Without mentoring, nurturing and providing a great learning environment for the students, the opportunity to excel might not otherwise be there.”

Wendy's Classic Achiever® Scholarship Awards Program recognizes graduating Canadian high school and cégep students in their graduating year who excel in academics, extracurricular activities and community service and encourages them “to keep up the good work” as they continue their studies at college or university. Allison plans to attend St. Francis Xavier University next year, majoring in Human Kinetics.
