

Heritage College SQUAD Club raises Money for Haitian Relief

Heritage College is very pleased to announce that the SQUAD club recently raised over \$400 to help the earthquake victims in Haiti. The money went to the “Help Heal Haiti” fund at Human Concern International and will be matched by the federal government.

Established in 1980, Human Concern International (HCI) is a Canadian, federally-registered, charitable organization striving “to help alleviate human suffering by investing in humanity,” with 95% of the funds they collect going directly to their relief programs and development projects.

This year’s SQUAD, which stands for “Students Questing Unity, Awareness and Diversity,” includes students from the Liberal Arts, Social Science and Commerce programs at Heritage. Throughout the academic year, through activism, they organize events to raise awareness of social, animal, environmental, human and political rights issues and raise funds for related worthy causes.

The 2009-2010 SQUAD members are Heather Baskerville, Emilie Cotton, Katie Labelle, Lauren Lemay, Riteba McCallum, Nicolas Morin, Suzanne Newing, Carla Plowright, Patrique Sullivan, Erin Wiles and Robyn Winklareth. Kudos to all of them for their efforts!
